

**Job Title:** Global IT Manager**Job Summary:**

We are seeking a highly motivated and experienced Global IT Manager to oversee the IT operations of our organization on a global scale. The Global IT Manager will be responsible for developing and implementing IT strategies to improve the efficiency and effectiveness of IT systems, managing the IT budget, ensuring data security and privacy, and supervising the IT staff.

**Key Responsibilities:**

- Develop and implement IT strategies that align with the organization's goals and objectives.
- Manage and monitor the IT budget, ensuring that resources are allocated effectively and efficiently.
- Ensure data security and privacy by implementing appropriate security measures, including firewalls, anti-virus software, and encryption.
- Collaborate with other departments to identify and address IT needs and issues.
- Stay up to date with emerging technologies and industry trends and make recommendations for IT improvements.
- Manage relationships with external vendors and service providers.
- Create and maintain IT policies and procedures to ensure compliance with relevant laws and regulations.

**Qualifications:**

- Bachelor's degree in computer science, Information Systems, or related field.
- 10+ years of experience in IT management, preferably in a global organization.
- Experience with IT strategy development and implementation.
- Strong leadership skills and the ability to manage a team of IT professionals.
- Strong communication, leadership, and interpersonal skills with fluency in English (written and spoken).
- Ability to work effectively in a fast-paced, global environment.
